Aims and objectives of this presentation

This interesting session allows colleagues from the EAU and the AAU to compare and contrast views relating to the effective management of a number of pertinent conditions, such as renal, bladder and prostate cancer. A number of functional disorders affecting the lower urinary tract are also reviewed, including overactive bladder, erectile dysfunction, urethral surgery both for anterior urethral strictures and following pelvic fracture injuries, and the appropriate management of benign prostatic hyperplasia.

10:30 - 10:35
Welcome
H. Abol-Enein, Mansoura (EG)
To be confirmed
C.R. Chapple, Sheffield (GB)
Y. Farahat, Tanta (EG)

10:35 - 11:15
Video's: How I do it

Moderators:
I. Al-Oraifi, Dammam (SA)
C.R. Chapple, Sheffield (GB)
N. Ramadan, Khartoum (SD)

10:35 - 10:45
Nerve sparing radical cystectomy
H. Abol-Enein, Mansoura (EG)

10:45 - 10:55
Nephron sparing partial nephrectomy
H. Van Poppel, Leuven (BE)

10:55 - 11:05
Posterior urethroplasty
L. Martínez-Piñeiro, San Sebastián de los Reyes (ES)

11:05 - 11:15
Discussion

11:15 - 12:05
Bladder disorders

Moderators:
H. Abol-Enein, Mansoura (EG)
Y. Farahat, Tanta (EG)
C.R. Chapple, Sheffield (GB)

11:15 - 11:30
Overactive bladder: What is new?
C.R. Chapple, Sheffield (GB)

11:30 - 11:45
NMIBC: When to do cystectomy?
Robotic radical cystectomy: Do we need it?

Pro:
J. Rassweiler, Heilbronn (DE)

Con:
H. Abol-Enein, Mansoura (EG)

Erectile dysfunction, prostate and urethra

Moderators: C.R. Chapple, Sheffield (GB)
N. Al-Hamdani, Baghdad (IQ)
A.A. Al-Zarooni, Sharjah (AE)

Treatment of erectile dysfunction when the medication fails
A. Shamsodini Takhtei, Doha - Waab (QA)

Urethroplasty: Challenges and alternative
C.R. Chapple, Sheffield (GB)

Prostatectomy for BPH: Still TUR or laser
A. Tubaro, Rome (IT)

Closing remarks
