Men’s sexual health: Focus on premature ejaculation, hypogonadism and lower urinary tract and ejaculatory dysfunction

**Location:** Room 14b (ICM, Level 1)

**Chairs:** B. Cuzin, Lyon (FR)
E.J.H. Meuleman, Amsterdam (NL)
A. Salonia, Milan (IT)

**Aims and objectives of this presentation**
The session will describe the most recent clinical evidence accumulated within the field of men’s sexual health including the treatment of premature ejaculation and hypogonadism. The main aim is to leave the audience with ideas which can be implemented in the every day clinical practice.

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion.

1000

**A prospective randomized study comparing the efficacy and safety of sildenafil with dapoxetine in treatment of premature ejaculation**
By: Elbakary M., Elgamasy A.E., Essa A., Elmatit S.
Institutes: Tanta University, Dept. of Urology, Tanta, Egypt

1001

**The efficiency and safety of tramadol, paroxetine and placebo in treatment of life long premature ejaculation**
By: Hamidi Madani A., Motiee R., Mokhtari G., Nasseh H., Esmaeili S., Kazemnezhad E.
Institutes: Urology Research Center, Guilan University of Medical Sciences, Dept. of Urology, Rasht, Iran

1002

**Effect of silodosin on premature ejaculation**
By: Sato Y.¹, Otani T.², Amano T.³, Araki T.⁴
Institutes: ¹Sanjukai Hospital, Dept. of Urology, Sapporo, Japan, ²Chubu Rosai Hospital, Dept. of Urology, Nagoya, Japan, ³Nagano Red Cross Hospital, Dept. of Urology, Nagano, Japan, ⁴Araki Kidney and Urology Department Clinic, Dept. of Urology, Kurashiki, Japan

1003

**A placebo controlled prospective randomized study to compare acupuncture and dapoxetine for treatment of lifelong premature ejaculation**
By: Sahin S.¹, Bicer M.², Seker K.G.¹, Yenice M.G.¹, Tugcu V.¹
Institutes: ¹Bakirkoy Dr. Sadi Konuk Training and Research Hospital, Dept. of Urology, Istanbul, Turkey, ²Bakirkoy Dr. Sadi Konuk Training and Research Hospital, Dept. of Physical Medicine and Rehabilitation, Istanbul, Turkey

1004

**Clinical study on the treatment of lifelong premature ejaculation with paroxetine hydrochloride and tamsulosin**
By: Li Y-F., Zhang C., Zhang K-Q., Jin F-S.
Institutes: Daping Hospital, Dept. of Urology, Chongqing, China

1005

**Long-term effects on urinary function in hypogonadal men treated with testosterone undecanoate injections (TU) vs untreated controls from a single urologist’s office: Real-life data from a registry study**
By: Haider A.¹, Haider K.¹, Doros G.², Traish A.³
Institutes: ¹Private Urology Practice, Dept. of Urology, Bremerhaven, Germany, ²Boston University
Can concomitant dutasteride reduce the effect of testosterone replacement therapy in men with late-onset hypogonadism? A 24-week, randomized, parallel study
By: Park H.J.¹, Park N.C.¹, Ha H.K.¹, Moon D.G.²
Institutes: Pusan National University Hospital, Dept. of Urology, Busan, South Korea, Korea University Hospital, Dept. of Urology, Seoul, South Korea

The effect of testosterone replacement in men with testosterone deficiency syndrome on cognitive performance and depression
By: Shin H.S.¹, Park J.S.¹, Moon K.H.²
Institutes: Catholic University of Daegu School of Medicine, Dept. of Urology, Daegu, South Korea, College of Medicine, Yeungnam University, Dept. of Urology, Daegu, South Korea

Testosterone deficiency is associated with increased aortic stiffness in hypertensive patients at low and moderate cardiovascular risk
By: Kratiras Z.¹, Makarounis K.¹, Ioakeimidis N.², Angelis A.², Sidiropoulos D.¹, Vlachopoulos C.², Tousoulis D.², Fasoulakis C.¹
Institutes: Hippokration General Hospital, Dept. of Urology, Athens, Greece, Hippokration General Hospital, Medical School, University of Athens, 1st Dept. of Cardiology, Athens, Greece

Predictors of inadequate initial response to clomiphene citrate in the treatment of hypogonadism
By: Nimeh T.², Luján S.¹, Kathrins M.², Niederberger C.²
Institutes: Hospital Universitari i Politècnic La Fe, Dept. of Urology, Valencia, Spain, University of Illinois at Chicago, Dept. of Urology, Chicago, United States of America

Study on the applied anatomy of the ejaculatory duct region
Institutes: Daping Hospital, Dept. of Urology, Chongqing, China

When does ejaculatory dysfunction recover after transrectal ultrasound guided prostate biopsy?
By: Song P.H., Lee K.S., Choi J.Y., Ko Y.H., Jung H.C., Moon K.H.
Institutes: Yeungnam University, College of Medicine, Dept. of Urology, Daegu, South Korea

Does concomitant testosterone replacement improve the response of tadalafil 5 mg once daily in men with lower urinary tract symptoms?
By: Park H.J.¹, Park N.C.¹, Moon D.G.²
Institutes: Pusan National University Hospital, Dept. of Urology, Busan, South Korea, Korea University Hospital, Dept. of Urology, Seoul, South Korea
