Aims and objectives of this presentation
This session presents results of local surgical laser treatment and new insights into molecular pathogenesis of penile cancer as well as new drugs to treat metastatic penile cancer.

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion.

231 Role of penile Doppler US in the preoperative assessment of penile squamous cell carcinoma patients: Results from a large prospective multicenter European study
By: Bozzini G.1, Provenzano M.2, Romero Otero J.3, Margreiter M.4, Garcia Cruz E.5, Osmolarskij B.6, Verze P.1, Pavan N.7, Sanguedolce F.8, Buffi N.9, Guazzoni G.2, Taverna G.1
Institutes: Humanitas Mater Domini, Dept. of Urology, Castellanza, Italy, 2Humanitas Research Hospital, Dept. of Urology, Rozzano, Italy, 3Hospital Universitario 12 De Octubre, Dept. of Urology, Madrid, Spain, 4Vienna General Hospital, Dept. of Urology, Vienna, Austria, 5Hospital Clinic De Barcelona, Dept. of Urology, Barcelona, Spain, 6Lomonosov University Hospital, Dept. of Urology, Moscow, Russia, 7University Federico II, Dept. of Urology, Naples, Italy, 8University of Trieste, Dept. of Urology, Trieste, Italy, 9Londo King’s College Hospital, Dept. of Urology, London, United Kingdom

232 Malignancy in biopsy proven penile lichen sclerosus
By: Zaid U., Laven G., Potts B., Peterson A.
Institutes: Duke University, Dept. of Urology, Durham, United States of America

233 Carbon dioxide laser treatment of penile intraepithelial neoplasia
By: Vint R.1, Zreik A.1, Rewhorn M.1, Khan R.2, Hendry D.1
Institutes: Queen Elizabeth University Hospital, Dept. of Urology, Glasgow, United Kingdom, 2Wishaw General Hospital, Dept. of Urology, Wishaw, United Kingdom

234 Outcomes of CO2 laser treatment for penile carcinoma in situ at a UK tertiary centre
By: McGuinness L.1, Veeratterapillay R.1, Conaway D.2, Teo L.2, Asterling S.2, Greene D.2, Keegan P.2
Institutes: Freeman Hospital, Dept. of Urology, Newcastle, United Kingdom, 2Sunderland Royal Hospital, Dept. of Urology, Sunderland, United Kingdom

235 Clinical usefulness of SPECT/CT during dynamic sentinel lymph node mapping in penile cancer
By: Omorphos S.1, Saad Z.2, Malone P.1, Nigam R.1, Bomanji J.2, Muneer A.1
Institutes: University College London Hospitals, Dept.of Urology, London, United Kingdom, 2University College London Hospitals, Dept. of Nuclear Medicine, London, United Kingdom

236 Surgical and oncological outcomes after video endoscopic inguinal lymphadenectomy (VEIL): Single institute series
Institutes: Kokilaben Dhirubhai Ambani Hospital, Dept. of Uro-oncology, Mumbai, India

237 Programmed death ligand 1 (PDL1) as a target for immunotherapy in penile carcinoma
238

PIK3CA gene copy number and mRNA expression in invasive penile cancer
By: Adimomeye A.1, Stankiewicz E.1, Kudahettì S.1, Rajab R.2, Corbishley C.3, Lu Y.-J.1, Watkin N.3, Berney D.1
Institutes: Barts Cancer Institute, Dept. of Molecular Oncology, London, United Kingdom, 2St George's Hospital, Dept. of Histopathology, London, United Kingdom, 3St George's Hospital, Dept. of Urology, London, United Kingdom

239

Pan-HER tropine-kinase inhibitors (TKI) dacomitinib and afatinib in penile squamous cell carcinoma (PSCC): Results from an ongoing open-label, single-group, phase 2 trial of dacomitinib in chemonaive patients (pts)
By: Necchi A.1, Raggi D.1, Giannatempo P.1, Nicolai N.2, Colecchia M.3, Calareso G.4, Togliardi E.5, Crippa F.6, Mariani L.7, Perrone F.3, Pelosi G.3, Salvioni R.2, Sonpavde G.8
Institutes: Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Medical Oncology, Milan, Italy, 1Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Urology, Milan, Italy, 3Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Pathology, Milan, Italy, 5Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Radiology, Milan, Italy, 3Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Pharmacy, Milan, Italy, 6Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Nuclear Medicine, Milan, Italy, 7University College London Hospitals, Dept. of Histopathology, London, United Kingdom, 1University College London, Dept. of Surgery and Interventional Sciences, London, United Kingdom, 2University College London Hospital, Dept. of Urology, London, United Kingdom, 4University College London Hospital, Dept. of Histopathology, London, United Kingdom, 5University College London, UCL Cancer Institute, London, United Kingdom

240

Distinct patterns of copy number aberrations in penile cancer
By: Rodney S.1, Feber A.1, Arya M.2, De Winter P.1, Saqib M.1, Nigam R.1, Malone P.1, Tan S.1, Christodoulidou M.1, Sahdev V.1, Lechner M.3, Freeman A.1, Jameson C.1, Muneer A.2, Beck S.5, Kelly J.1
Institutes: University College London, Dept. of Surgery and Interventional Sciences, London, United Kingdom, 1University College London Hospital, Dept. of Urology, London, United Kingdom, 2University College London Hospitals, Dept. of Histopathology, London, United Kingdom, 3University College London Hospital, Dept. of Histopathology, London, United Kingdom, 4University College London, UCL Cancer Institute, London, United Kingdom

241

Prognostic factors of adjuvant chemotherapy with taxane, cisplatin, and 5FU combination (TPF) in patients (pts) with nodal metastases of penile squamous cell carcinoma (PSCC)
By: Necchi A.1, Lo Vullo S.2, Nicolai N.2, Raggi D.1, Giannatempo P.1, Colecchia M.4, Torelli T.3, Catanzaro M.3, Piva L.3, Biasoni D.3, Stagni S.3, Mariani L.3, Salvioni R.3
Institutes: Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Medical Oncology, Milan, Italy, 1Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Oncology, Milan, Italy, 3Fondazione IRCCS - Istituto Nazionale Dei Tumori, Clinical Epidemiology and Trials Organization Unit, Milan, Italy, 5Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Urology, Milan, Italy, 7Fondazione IRCCS - Istituto Nazionale Dei Tumori, Dept. of Pathology, Milan, Italy

242

Comparison of survival outcomes for African–American and Caucasian men with advanced penile cancer in Florida
By: Ritch C.2, Pavan N.1, Rai S.2, Soodana-Prakash N.2, Balise R.3, Parekh D.2, Gonzalgo M.2
Institutes: 1University of Trieste, Dept. of Urology, Trieste, Italy, 2University of Miami Leonard M. Miller School of Medicine, Dept. of Urology, Miami, Florida, United States of America, 3University of Miami Leonard M. Miller School of Medicine, Dept. of Biostatistics, Department of Public Health Sciences, Miami, Florida, United States of America

243

Penile cancer cell lines of primary tumors and lymph node metastases are resistant to tumor necrosis factor-related apoptosis-inducing ligand (TRAIL)-mediated cell death
By: Naumann C.4, M.1, Hamann M.5, Van Der Horst C.1, Colberg C.1, Osmonov D.1, Engelmann D.2, Jünemann K.P.1, Kalhoff H.3, Trauzold A.3
Institutes: ¹University Hospital Schleswig-Holstein, Dept. of Urology, Kiel, Germany, ²Institute of Experimental Gene Therapy and Cancer Research, Biomedical Research Center Rostock University Medical Center, Rostock, Germany, ³Institute For Experimental Cancer Research, Dept. of Molecular Oncology, Kiel, Germany

17:15 - 17:22

Summary and context
S.S. Minhas, London (GB)
