Hormone therapies in prostate cancer, less but better

Poster Session 67

**Location:** Room Stockholm (Hall B2, level 0)

**Chairs:** S. Bracarda, Perugia (IT)
F. Calais Da Silva Junior, Lisbon (PT)
J. Morote Robles, Barcelona (ES)

**Aims and objectives of this presentation**
Hormone therapy remains the mainstay systemic treatment of advanced prostate cancer. Despite almost 60 years of use the optimal timing and modalities remain to be determined. This session will focus on recent updates.

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion. Extended presentations (•) are 3 minutes in length, followed by 3 minutes for discussion.
