ESU/ESUT Hands-on training in GreenLight Laser Vaporisation

**Location:** Room North America (Hall B0, level 0)

**Chair:** J.A. Thomas, Bridgend (GB)

**Aims and objectives of this presentation**
The European School of Urology (ESU) and the European Section of Uro-Technology (ESUT) offer an intensive hands-on training course with different models focussing on the endoscopic management of LUTS. The delegates will be taken through a sequential programme of GreenLight-laservaporisation using virtual reality models. A video demonstrating the different steps and tasks of the procedures will be presented and afterwards the delegates will be instructed according to their level of experience in small teams at the models. Finally, all remaining questions can be answered and discussed with all tutors including the demonstration of tips and tricks.
