3rd ESO Prostate Cancer Observatory: Innovation and care in the next 12 months

Special session

**Location:** Room 11 (ICM, Level 1)

**Chairs:**
- S. Joniau, Leuven (BE)
- R. Valdagni, Milan (IT)

**Aims and objectives of this presentation**
ESO Observatories are high level sessions organised during major international congresses with the aim of providing the audience with updated and unbiased information on a given topic. An ESO Observatory lasts about one hour and concentrates on a forecast given by a panel of experts on what it is expected to happen in their own field in the coming 12 months. The Panel includes distinguished clinicians and/or scientists and a patient advocate. The forecast by each panel member is given in the form of take-home concise messages with a 5 minute slide presentation followed by 3 minutes of discussion for each topic. The forecast will be discussed by the panel.

**Scientific Programme**

- **09:45 - 09:50**
  - **Introduction**

- **09:50 - 10:00**
  - **The researcher’s perspective**
    - F. Claessens, Leuven (BE)

- **10:00 - 10:10**
  - **The urologist’s perspective on screening**
    - K. Touijer, New York (US)

- **10:10 - 10:20**
  - **The biostatistician/methodologist’s perspective**
    - D. Sjoberg, New York (US)

- **10:20 - 10:30**
  - **The imaging specialist’s perspective on MRI**
    - M. Emberton, London (GB)

- **10:30 - 10:40**
  - **The pathologist’s perspective**
    - R. Montironi, Torrette di Ancona (IT)

- **10:40 - 10:50**
  - **The radiation oncologist’s perspective**
    - G. De Meerleer, Ghent (BE)

- **10:50 - 11:00**
  - **The medical oncologist’s perspective**
    - S. Osanto, Leiden (NL)

- **11:00 - 11:10**
  - **The imaging specialist’s perspective on PSMA**
    - K. Goffin, Leuven (BE)
